The Common Elements of the Project and the respective responsibilities for maintenance, decoration, repair, removal, or replacement thereof, are as follows:

Section 1. General Common Elements. The General Common Elements are:

(a) **Land.** The land described in Article II hereof not identified as Units or Limited Common Elements.

(b) **Easements.** All easements, if any, which benefit the Condominium Project as a whole.

(e) Telephone. The telephone system located throughout the Project up to the point of lateral connection for Unit service.

(f) Gas. The gas distribution system located throughout the Project up to the point of lateral connection for Unit service.

(g) Telecommunications. The telecommunications system located throughout the Project, if and when any may be installed, up to the point of lateral connection for Unit service.

(h) Storm Water Drainage System. The storm water drainage system located throughout the Project and all equipment related thereto, except to the extent set forth in Section 4 of this Article.

(i) Sanitary Sewer. The sanitary sewer system located throughout the Project up to the point of lateral connection for Unit Service, except to the extent set forth in Section 4 of this Article.

(j) Site Lighting. The lighting system, if any, located throughout the Project.

(k) Water Distribution System. The water distribution system located throughout the Project up to the point of lateral connection for Unit service, and the sprinkling system fixtures, connections, and controls located on the General Common Elements to the extent any are installed.

(l) Other. Such other elements of the Project not herein designated as General or Limited Common Elements which are not enclosed within the boundaries of a Unit, and which are intended for common use or are necessary to the existence, upkeep, appearance, utility, or safety of the Project.

Section 2. Limited Common Elements. Limited Common Elements shall be subject to the exclusive use and enjoyment of the Owner of the Unit to which the Limited Common Elements are appurtenant. The Limited Common Elements are as follows:

(a) Utility Lateral. Utility laterals from the connection to the mains are limited to the Unit served thereby.

(b) Mailboxes. Mailboxes are limited to the Unit to which they are assigned.

(c) Driveways. The driveway adjacent to the Unit it serves to the extent that it is not contained within the Unit.

Section 3. Responsibilities. The respective responsibilities for the maintenance, decoration, repair, removal, and replacement of the Common Elements and other improvements are as follows:

(a) Co-owner Responsibilities.

(i) Units and Dwellings. It is anticipated that separate residential dwellings will be constructed and maintained upon the Units depicted on Exhibit "B" hereto. Except as otherwise expressly provided, the responsibility for and the costs of maintenance, decoration, repair and replacement of each Unit, its Limited Common Elements, and any dwelling and other related structures constructed within the Unit, shall be borne by the Co-owner of the Unit which is served thereby: provided, however, that the exterior appearance of the dwellings, to the extent visible from any other dwelling or Common Element in the Project, shall be subject to reasonable aesthetic and maintenance standards in the Jefferson Village II Condominium Bylaws attached hereto at Exhibit "A" and as prescribed by the Architectural Control Committee and as provided in duly adopted rules and regulations. Failure of any Co-owner to adhere to such maintenance and aesthetic standards shall entitle the Association or the Developer to enter upon such Co-owner's Unit and to perform the necessary maintenance, decoration, repair, removal, or replacement in accordance with the provisions of Article X, Section 5 of this Master Deed.

(ii) Limited Common Elements. The cost of maintenance, repair and replacement of all Limited Common Elements shall be borne by the Co-owners of the Unit served thereby.

(iii) Utility Services. All costs of installation and operation of lateral lines for water, sewer, electricity, and natural gas and any other utility services and all costs of service to the Unit shall be borne by the Co-owner of the Unit to which such services are furnished.

(b) Association Responsibilities for General Common Elements. The costs of maintenance, repair, and replacement, if any, of all General Common Elements shall be borne by the Association, subject to any provisions of the Bylaws expressly to the contrary.

(c) Association Responsibility for Units and Dwellings. The Association shall not be responsible for performing any maintenance, repair, removal, or replacement with respect to any dwelling, or any other related structures or appurtenances located within the Condominium Units. Nevertheless, in order to provide for flexibility in administering the Condominium, the Association, acting through its Board of Directors, may undertake such other regularly recurring, reasonable uniform, periodic exterior maintenance functions with respect to dwellings constructed within any Unit boundaries as it may deem appropriate, including, without limitation, grass cutting, snow removal or yard area maintenance. Nothing herein contained, however, shall compel the Association to undertake such responsibilities. Any such responsibilities undertaken by the Association in accordance with this Section shall be charged to any affected Co-owner on a reasonably uniform basis and collected in accordance with the assessment procedures established under Article II of the Bylaws. The Developer, in the initial maintenance budget for the Association, shall be entitled to determine the nature

and extent of such services and reasonable rules and regulations to be imposed in connection therewith.

Section 4. Utility Systems. Some or all of the utility lines, systems (including mains and service leads) and equipment, and any telecommunication systems, described above may be owned by the local public authority or by the company that is providing the pertinent service. Accordingly, such utility lines, systems and equipment, and any telecommunications systems, shall be Common Elements only to the extent of the Co-owners' interest therein, if any, and Developer makes no warranty whatever with respect to the nature or extent of such interest, if any. The extent of the Developer's responsibility will be to see to it that telephone, water, electric, and natural gas mains exist or are installed within reasonable proximity to, but not necessarily within, the Units.

Section 5. Use of Units and Common Elements. No Co-owner shall use his or her Unit or the Common Elements in any manner inconsistent with the purposes of the Project or in any manner that will interfere with or impair the rights of any other Co-owner in the use and enjoyment of his or her Unit or the Common Elements. No Limited Common Element, if created, may be modified or its use enlarged or diminished by the Association without the written consent of the Co-owner to whose Unit the same is appurtenant.

**ARTICLE V
UNIT DESCRIPTIONS, PERCENTAGES OF VALUE AND CO-OWNER
RESPONSIBILITIES**

Section 1. Description of Units. The Condominium consists of 23 Units numbered 1 through 23, inclusive. Each Unit is described in this paragraph with reference to the Condominium Subdivision Plan of Jefferson Village II Condominium as prepared by Giffels Webster Engineering, 407 East Fort Street #600, Detroit, Michigan 48226, and attached hereto as Exhibit "B." Each Unit shall consist of the land located within Unit boundaries as shown on Exhibit "B" hereto and delineated with heavy outlines together with all appurtenances thereto.

Section 2. Percentage of Value. The percentage of value assigned to each of the Units is equal. The determination that percentages of value should be equal was made after reviewing the comparative characteristics of the Units in the Project and concluding that there are not material differences among the Units insofar as the allocation of percentages of value is concerned. The percentage of value assigned to each Unit shall be determinative of each Co-owner's respective share of the General Common Elements of the Condominium Project, the proportionate share of each respective Co-owner in the proceeds and expenses of administration and the value of such Co-owner's vote at meetings of the Association of Co-owners. The total value of the Project is 100%.

**ARTICLE VI
CONSOLIDATION AND OTHER MODIFICATIONS OF UNITS**

Notwithstanding any other provision of the Master Deed or the Bylaws, Units in the Condominium may be consolidated, modified, and the boundaries relocated, in accordance with

Section 48 of the Act, any applicable local ordinances and regulations, and this Article; such changes in the affected Unit or Units shall be promptly reflected in a duly recorded amendment or amendments to this Master Deed. Whenever required such changes shall be made subject to such approval of the City of Detroit. Developer reserves the sole right during the Development and Sales Period and without the consent of any other Co-owner or any mortgagee of any Unit to do the following: realign or alter any Unit that it owns or any Units for which the Co-owner has given their consent, consolidate under single ownership two or more Units that are located adjacent to one another, and relocate any boundaries between adjoining Units. Such realignment of Units, consolidation of Units, or relocation of boundaries of Units shall be given effect by an appropriate amendment or amendments to this Master Deed in the manner provided by law, which amendment or amendments shall be prepared by and at the sole discretion of Developer, its successors or assigns.

ARTICLE VII CONTRACTION OF CONDOMINIUM

Section 1. Right to Contract. As of the date this Master Deed is recorded, the Developer intends to establish a Condominium Project consisting of 23 Units on the land described in Article II hereof all as shown on the Condominium Subdivision Plan. Developer reserves the right, however, to establish a Condominium Project consisting of fewer Units and to withdraw from the project all or some portion(s) of the land described in Article II (hereinafter referred to as the "Contractible Area").

Section 2. Withdrawal of Land. Any other provision of this Master Deed notwithstanding, the number of Units in the Project may, at the option of the Developer, from time to time, within a period ending no later than six years from the date of recording this Master Deed, be contracted to any number determined by the Developer in its sole judgment, but in no event shall the number of Units be less than 11. In connection with such contraction, the Developer unconditionally reserves the right to withdraw from the Condominium Project such portion or portions of the land described in this Article as is not reasonably necessary to provide access to or otherwise serve the Units included in the Condominium Project as so contracted. Developer reserves the right to use the portion of the land so withdrawn to establish, in its sole discretion, a separate condominium project (or projects) or any other form of development. Developer further reserves the right, subsequent to such withdrawal but prior to six years from the date of recording this Master Deed, to expand the Project as so reduced to include all of any portion of the land so withdrawn.

Section 3. Contraction Not Mandatory. There is no obligation on the part of the Developer to withdraw from the Condominium all or any portion of the Contractible Area described in this Article, nor is there any obligation to withdraw portions thereof in any particular order. Further, portions of the land may be withdrawn from the condominium project at different times.

ARTICLE VIII EXPANSION OF CONDOMINIUM

Section 1. Area of Future Development. The Condominium Project established pursuant to the initial Master Deed of this Condominium and consisting of twenty-three (23) Units is intended to be the first phase of an expandable Condominium under the Act. Subsequent phases of the Condominium Project may add land to the Condominium Project upon which additional Units will be constructed. In its entirety, the Project may contain 240 Units. Units created in the expansion may be commercial, residential, or mixed use units. The Developer reserves the right to subject Units added to the Project, i.e. commercial or mixed use, to separate restrictions and methods of assessing for expenses, as well as, subjecting such Units to membership in a commercial association as determined in the sole judgment of the Developer. Additional Units, if any, may be constructed upon all or some portion or portions of the following described land:

Preserving all other lawful easements, restrictions, and right-of ways of record and all governmental limitations (hereinafter referred to as the "Area of Future Development").

Section 2. Increase in Number of Units. Any other provisions of this Master Deed notwithstanding, the number of Units in the Condominium may, at the option of the Developer or its successors or assigns, from time to time, within a period ending no later than six (6) years from the date of recording this Master Deed, be increased by the addition to this Condominium

of any portion of the Area of future Development and the construction of Condominium Units thereon. This period may be extended with the prior approval of sixty-six and two-thirds (66 2/3%) of all Co-Owners eligible to vote. The location, nature, appearance, design (interior and exterior), structural components, and common elements of all such additional Units as may be constructed thereon shall be determined by the Developer in its sole discretion. Additional Unit areas may include mixed residential and commercial use.

Section 3. Expansion Not Mandatory. Nothing herein contained shall in any way obligate Developer to enlarge the Condominium beyond the phase established by this Master Deed and Developer (or its successors and assigns) may, in its discretion, establish all of a portion of said Area of Future Development as a rental development, a separate Condominium Project (or Projects) or any other form of development or retain same as raw land. There are no restrictions on the election of the Developer to expand the Condominium other than as explicitly set forth herein. There is no obligation on the part of the Developer to add to the Condominium all or any portion of the Area of Future Development described in this Article nor is there any obligation to add portions thereof in any particular order nor to construct particular improvements thereon in any specific locations.

**ARTICLE IX
CONVERTIBLE AREAS**

Section 1. Developer's Rights regarding Convertible Areas. The Developer intends to construct the Units in the Condominium as indicated on the Condominium Subdivision Plan (Exhibit "B"). The Developer reserves the right, in its sole discretion, during a period ending six years from the date of recording of this Master Deed to convert, modify the size, location, design or elevation of Units and/or General or Limited Common Elements appurtenant or geographically proximate to such Units within the areas immediately adjacent to the Units and or immediately adjacent to the Limited Common Elements as need arises in order to make reasonable changes to Unit types and sizes, to increase and decrease the immediately adjacent common areas, or to create additional Limited Common Elements, so long as such modifications do not unreasonably impair or diminish the appearance of the Project or the view, privacy or other significant attribute or amenity of any Unit which adjoins or is proximate to the modified Unit or Common Element.

**ARTICLE X
OPERATIVE PROVISIONS**

The provisions as set forth below shall govern any consolidation, contraction, and conversion in the Project pursuant to Articles VI, VII, VIII and IX above.

Section 1. Amendment of Master Deed and Modification of Percentages of Value. Such consolidation, contraction, or conversion of the Condominium Project shall be given effect by appropriate amendments to this Master Deed in the manner provided by law, which amendments shall be prepared by and at the discretion of the Developer and in which the percentages of value set forth in Article V hereof shall be proportionately readjusted when applicable in order to preserve a total value of 100% for the entire Project resulting from such

amendments to this Master Deed. The precise determination of the readjustments in percentages of value shall be made within the sole judgment of the Developer. Such readjustments, however, shall reflect a continuing reasonable relationship among percentages of value based upon the original method of determining percentages of value for the Project.

Section 2. Redefinition of Common Elements. Such amendments to the Master Deed shall also contain such further definitions and redefinitions of General or Limited Common Elements as may be necessary to adequately describe, serve, and provide access to the additional parcel or parcels being added to or withdrawn from the Project by such amendments. In connection with any such amendments, the Developer shall have the right to change the nature of any Common Element previously included in the Project for any purpose reasonably necessary to achieve the purposes of this Article, including, but not limited to, the connection of roadways and sidewalks in the Project to any roadways and sidewalks that may be located on, or planned for adjacent or contiguous property even if access to such property is by means of an easement, as the case may be.

Section 3. Consolidating Master Deed. A Consolidating Master Deed must be recorded pursuant to the Act when the Project is finally concluded as determined by the Developer in order to incorporate into one set of instruments all successive stages of development. The Consolidating Master Deed, when recorded, shall supersede the previously recorded Master Deed and all amendments thereto.

Section 4. Consent of Interested Persons. All of the Co-owners and mortgagees of Units and other persons interested or to become interested in the Project from time to time shall be deemed to have irrevocably and unanimously consented to such amendments to this Master Deed as may be proposed by the Developer to effectuate the purposes of Articles VI, VII VIII and IX above and to any proportionate reallocation of percentages of value of existing Units which the Developer may determine necessary in conjunction with such amendments. All such interested persons irrevocably appoint the Developer as agent and attorney for the purpose of execution of such amendments to the Master Deed and all other documents necessary to effectuate the foregoing. Such amendments may be effected without the necessity of re-recording the entire Master Deed or the Exhibits hereto and may incorporate by reference all or any pertinent portions of this Master Deed and the Exhibits hereto.

Section 5. Expiration of Rights. Notwithstanding anything herein to the contrary, if the Developer has not completed the development and construction of the entire Project, i.e. all Condominium Units (exclusive of dwellings and other related structures and improvements), and the proposed improvements, whether identified as "must be built" or "need not be built," during a period ending 10 years from the date of commencement or construction by the Developer of the Project, the Developer, its successors or assigns, have the right to withdraw from the Project all undeveloped portions of the Project without the prior consent of any Co-owners, mortgagees, Units in the Project, or any other party having an interest in the Project. If the Developer has exercised any of its rights contained in the Master Deed permitting consolidation, contraction or rights of convertibility of Units or Common Elements, then the time period is 6 years from the date the Developer exercised its rights with respect to the consolidation, contraction or right of convertibility, whichever right was exercised last. The undeveloped portion of the Project withdrawn shall also automatically be granted easements for

utility and access purposes through the Project for the benefit of the undeveloped portions of the Project. If the Developer does not withdraw the undeveloped portions of the Project from the Project before the expiration of the time periods, such lands shall remain part of the Project as General Common Elements and all rights to construct Units upon that land shall cease. In such an event, if it becomes necessary to adjust percentages of value as a result of fewer Units existing, a Co-owner or the Association of Co-owners may bring an action to require revisions to the Percentages of Value.

**ARTICLE XI
EASEMENTS AND RESTRICTIONS**

Section 1. Easement for Maintenance of Encroachments. In the event of any encroachments due to shifting, settling, moving of a Unit, or due to survey errors or construction deviations, reciprocal easements shall exist for the maintenance of such encroachment for so long as such encroachment exists, and for maintenance thereof after rebuilding in the event of any destruction. This Section shall not allow or permit any encroachment upon, or an easement for an encroachment upon, Units described in this Master Deed being comprised of land and/or airspace above and/or below said land, without the consent of the Co-owner of the Unit to be burdened by the encroachment or easement.

Section 2. Easement for Utilities. There shall be easements to, through, and over all portions of the land in the Condominium, including all areas lying within Unit boundaries, for installation and for the continuing existence, maintenance, repair, removal, replacement and enlargement of or tapping into all utilities in the Condominium including but not limited to: underground television cable, sanitary and storm sewer lines, water mains, drainage lines, surface drainage swales, and any other improvement or specific utility easement that would serve the Condominium as shown on the Condominium Subdivision Plan.

Section 3. Rights Retained by Developer.

(a) Ingress and Egress. The Developer hereby reserves permanent nonexclusive easements for ingress and egress over the driveways, and walks, if any, in the Condominium and permanent easements to use, tap into, enlarge or extend all driveways, walks, and utility lines in the Condominium, including without limitation, all communications, water, gas, electric, storm and sanitary sewer lines, and any pumps, sprinklers or water retention and detention areas, all of which easement shall be for the benefit of any other land adjoining the Condominium if now owned or hereafter acquired by Developer or its successors. This easement shall run with the land in perpetuity. The Developer has no financial obligation to support such easements.

(b) Utility Easements. The Developer also hereby reserves for the benefit of itself, its successors and assigns, and all future owners of the land described in Article II or any portion or portions thereof, and for the benefit of any other land adjoining the Condominium if now owned or hereafter acquired by Developer or its successors, perpetual easements to utilize, tap, tie into, extend, and enlarge all utility mains located in the Condominium, including, but not limited to, water, gas, and storm water drainage

system. In the event Developer, its successors or assigns, utilizes, taps, ties into, extends, or enlarges any utilities located in the Condominium, it shall be obligated to pay all of the expenses reasonably necessary to restore the Condominium Premises to their state immediately prior to such utilization, tapping, tying-in, extension, or enlargement. All expenses of maintenance, repair, and replacement of any utility mains referred to in this Section shall be shared by this Condominium and any developed portions of the land described in Article II that are served by such mains including any other land adjoining the Condominium now owned or hereafter acquired by Developer or its successors. This easement shall run with the land in perpetuity. The Developer has no financial obligation to support such easements.

(c) Public Utility Easements. The Developer reserves the right at any time during the Development and Sales Period to grant easements for utilities over, under and across the Condominium and all Units and Common Elements therein to appropriate governmental agencies, public utility companies, Co-owners or owners of property in proximity to the Condominium and to transfer title of utilities to governmental agencies or to utility companies. Any such easement or transfer of title may be conveyed by the Developer without the consent of any Co-owner, mortgagee or other person and shall be evidenced by an appropriate amendment to this Master Deed and to Exhibit "B" hereto, recorded in the Wayne County Records. All of the Co-owners and mortgagees of Units and other persons interested or to become interested in the Project from time to time shall be deemed to have irrevocably and unanimously consented to such amendments to this Master Deed as may be required to effectuate the foregoing grant of easements or transfers of title.

(d) Right to Dedicate. The Developer reserves the right at any time during the Development and Sales Period to dedicate to the public a right-of-way of such width as may be required by the local public authority over any or all of the roadways in Jefferson Village II Condominium, shown as General Common Elements in the Condominium Subdivision Plan. Any such right-of-way dedication may be made by the Developer without the consent of any Co-owner, mortgagee or other person and shall be evidenced by an appropriate amendment to this Master Deed and to the Condominium Subdivision Plan hereto, recorded in the Wayne County Records. All of the Co-owners and mortgagees of Units and other persons interested or to become interested in the Project from time to time shall be deemed to have irrevocably and unanimously consented to such amendment or amendments of this Master Deed to effectuate the foregoing right-of-way dedication.

(e) Development and Sales Period. The Developer reserves the right at any time during the Development and Sales Period to maintain reasonable facilities, including but not limited to, signage, commercial lighting, marketing and sales offices, business offices, construction offices, model Units, storage areas, and parking facilities to facilitate the construction and sales of the Project. During the Development and Sales Period, the Developer may invite the general public, and/or government officials and entities, and/or the media to enter upon the Condominium for purposes of sales and marketing events of the Developer and of the Project. During the Development and Sales Period, and forever thereafter, the Developer reserves the unrestricted right to the

use of the "Jefferson Village II Condominium" name and/or other identifying phrases, marks, logos, photographs, drawings, designs, plans, signage, and marketing and promotional materials associated with the Project and may use them for any and all purposes. The Developer further reserves an access easement for ingress and egress over, across, and through the Project as may be necessary to enable the construction, marketing and sale of the entire Project. The Developer may assign the easements and rights contained in this paragraph without notice or consent of the Co-owners.

Section 4. Grant of Easements by Association. The Association, acting through its lawfully constituted Board of Directors (including any Board of Directors acting prior to the Transitional Control Date) shall be empowered and obligated to grant such reasonable easements, licenses, rights-of-entry, and rights-of-way over, under, and across the Condominium Premises for utility purposes or other lawful purposes as may be necessary for the benefit of the Condominium subject, however, to the approval of the Developer so long as the Development and Sales Period has not expired. No easements created under the Condominium Documents may be modified, nor may any of the obligations with respect thereto be varied, without the consent of each person benefited or burdened thereby.

Section 5. Easements for Maintenance, Repair and Replacement. The Developer, the Association and all public or private utility agencies or companies shall have such easements over, under, across and through the Condominium Premises, including all Units and Common Elements, as may be necessary to fulfill any responsibilities of maintenance, repair, decoration, replacement, removal or upkeep which they or any of them are required or permitted to perform under the Condominium Documents or by law or to respond to any emergency or common need of the Condominium; provided, however, that the easements granted hereunder shall not entitle any person other than the Owner thereof to gain entrance to the interior of any dwelling or garage located within a Unit. While it is intended that each Co-owner shall be solely responsible for the performance and costs of all maintenance, repair, removal, and replacement of and decoration of the dwelling and all other appurtenances and improvements constructed or otherwise located within his or her Unit, it is nevertheless a matter of concern that a Co-owner may fail to maintain the exterior of his or her dwelling or structures appurtenant thereto in a proper manner and in accordance with the standards set forth in this Master Deed, the Bylaws and any rules and regulations promulgated by the Association. Therefore, in the event a Co-owner fails, as required by this Master Deed, the Bylaws or any rules and regulations of the Association, to properly and adequately maintain, decorate, repair, removal, replace, landscape, or otherwise keep his or her Unit, the dwelling thereon or any improvements or appurtenances located therein or any Limited Common Elements appurtenant thereto, the Association (and/or the Developer during the Development and Sale Period) shall have the right, and all necessary easements in furtherance thereof (but not the obligation), to take whatever action or actions it deems desirable to so maintain, decorate, repair, remove, or replace the dwelling or other structures within the Unit, its appurtenances or any of its Limited Common Elements, and any landscaping, all at the expense of the Co-owner of the Unit. Neither the Developer nor the Association shall be liable to the Co-owner of any Unit or any other person, in trespass or in any other form of action, for the exercise of rights pursuant to the provisions of this Section or any other provision of the Condominium Documents which grant such easements, rights of entry or other means of access. Failure of the Association (or the Developer) to take any such action shall not be

deemed a waiver of the Association's (or the Developer's) right to take any such action at a future time. All costs incurred by the Association or the Developer in performing any responsibilities which are required, in the first instance to be borne by any Co-owner, shall be assessed against such Co-owner and shall be due and payable with his or her regular assessment next falling due; further, the lien for non-payment shall attach as in all cases of regular assessments and such assessments may be enforced by the use of all means available to the Association under the Condominium Documents and by law for the collection of regular assessments including, without limitation, legal action, foreclosure of the lien securing payment and imposition of fines.

Section 6. Utility Easements and Locations of Utility Installations. Various utility installations exist within the Units and are depicted on the Condominium Subdivision Plan. Perpetual easements exist and are hereby created in this Master Deed and otherwise in favor of all Units and the Co-owners thereof for the continued existence, maintenance, repair, replacement, and removal of such utilities, whether located above or below ground. Also, other utility mains (including, without limitation, natural gas, electric, and telephone conduits) may be installed by or at the instance of Developer across all Units to serve some or all other Units in the Condominium. Developer reserves the right to create all such easements and to install or cause to be installed any and all utilities within and across all Units in such locations as Developer may elect, in Developer's sole and absolute discretion and, further, to tap into, extend, and enlarge such utilities as may be necessary, in Developer's judgment.

Section 7. Telecommunications Agreements. The Association, acting through its duly constituted Board of Directors and subject to the Developer's approval during the Development and Sales Period, shall have the power to grant such easements, licenses and other rights of entry, use and access and to enter into any contract or agreement, including wiring agreements, right-of-way agreements, access agreements, and multi-unit agreements and, to the extent allowed by law, contracts for sharing of any installation or periodic subscriber service fees as may be necessary, convenient, or desirable to provide for telecommunications, videotext, broad band cable, satellite dish, earth antenna and similar services (collectively "Telecommunications") to the Project or any Unit therein. Notwithstanding the foregoing, in no event shall the Board of Directors enter into any contract or agreement or grant any easement, license or right of entry or do any other act or thing which will violate any provision of any federal, state, local law, or ordinance. Any and all sums paid by any telecommunications or other company or entity in connection with such service, including fees, if any, for the privilege of installing same or sharing periodic subscriber service fees, shall be receipts affecting the administration of the Condominium Project within the meaning of the Act and shall be paid over to and shall be the property of the Association.

Section 8. Subdivision Sign Easement. There shall exist a perpetual easement in favor of all Units and the Co-owners thereof, and the Association for the construction, maintenance, repair, replacement, and illumination of signs in designating and identifying Jefferson Village II Condominium wherever located. The signs or any replacement signs shall bear the name "Jefferson Village II Condominium" in prominent letters. It shall be the responsibility of the Association to maintain, repair, replace, and illuminate the signs. If the Association fails to maintain, repair, replace or illuminate the signs, the Developer shall have the right, but not the

obligation, at its own expense, to maintain, repair, replace, or illuminate the signs, and charge the cost thereof to the Association.

Section 9. Emergency Access Easement. There shall exist for the benefit of all Co-owners, their guests and invitees, the City of Detroit, Wayne County, the State of Michigan, and any and all emergency vehicles, an ingress and egress easement over the roads and Common Elements in the Condominium as depicted on the Condominium Subdivision Plan. This easement shall not obligate the Township, the County, or the State to any maintenance or repair obligations with respect to the private roads or Common Elements within the Condominium.

Section 10. Termination. The Developer reserves to itself and its successors and assigns the right to terminate and revoke any easement granted in this Master Deed at such time as the particular easement may become unnecessary. Any termination or revocation of an easement under this paragraph shall be given effect by the recordation of an appropriate amendment to this Master Deed in accordance with the Act.

**ARTICLE XII
AMENDMENT**

This Master Deed, Bylaws, and the Condominium Subdivision Plan may be amended with the consent of 2/3 majority vote of the Co-owners, except as hereinafter set forth:

Section 1. Modification of Units or Common Elements. No Unit dimension may be modified in any material way without the written consent of the Co-owner and mortgagee of such Unit, nor may the nature or extent of Limited Common Elements or the responsibility for maintenance, repair or replacement thereof be modified in any material way without such consent, except as otherwise expressly provided in the Master Deed or in the Bylaws.

Section 2. Mortgagee Consent. Whenever a proposed amendment would materially alter or change the rights of mortgagees generally, then such amendments shall require the approval of 2/3 majority vote of all first mortgagees of record allocating one vote for each mortgage held. Mortgagees need not appear at any meeting of Co-owners except that their approval shall be solicited through written ballots. To the extent that a vote of mortgagees of Units are required for the amendment of the Condominium Documents, the procedure described in Section 90a of the Act, MCL 559.190a shall be followed. A person causing or requesting an amendment to the Condominium Documents shall be responsible for costs and expenses of the amendment, except for amendments based upon a vote of a prescribed majority of Co-owners and mortgagees or based upon the advisory committee's decision, the costs of which are expenses of administration.

Section 3. By Developer. Prior to one year after the expiration of the Development and Sales Period and except as provided in Sec 90 (4) of the Act, the Developer reserves the right to amend materially the Condominium Documents, without the consent of any Co-owner or mortgagee, or any other person, in order to correct the survey or other errors or omissions made in such documents and to make such other amendments to Condominium Documents that are necessary to conform and clarify the terms, provisions, rights, duties, and responsibilities of the Developer, the Association, and Co-owners, including a Consolidating

Master Deed amendment or amendment dealing with the addition, withdrawal, or modification of Units, General and Limited Common Elements or other physical characteristics of the Project.

Section 4. Change in Percentage of Value. Except as otherwise provided in this Master Deed, the value of the vote of any Co-owner and the corresponding proportion of common expenses assessed against such Co-owner shall not be modified without the written consent of such Co-owner and his or her first mortgagee, nor shall the percentage of value assigned to any Unit be modified without like consent.

Section 5. Termination, Vacation, Revocation, or Abandonment. The Condominium Project may not be terminated, vacated, revoked, or abandoned without the written consent of 80% of non-Developer Co-owners and mortgagees and, during the Development and Sales Period, the Developer.

Section 6. Developer Approval. During the Development and Sales Period, the Condominium Documents shall not be amended nor shall the provisions thereof be modified in any way without the written consent of the Developer.

Section 7. Amendments for Secondary Market Purposes. The Developer or Association may amend the Master Deed or Bylaws to facilitate mortgage loan financing for existing or prospective Co-owners and to enable the purchase or insurance of such mortgage loans by the Federal Home Loan Mortgage Corporation, the Federal National Mortgage Association, the Government National Mortgage Association, the Veterans Administration, the Department of Housing and Urban Development, Michigan State Housing Development Authority or by any other institutional participant in the secondary mortgage market which purchases or insures mortgages. The foregoing amendments may be made without the consent of Co-owners or mortgagees.

**ARTICLE XIII
ASSIGNMENT**

Any or all of the rights and powers granted or reserved to the Developer in the Condominium Documents or by law, including the power to approve or disapprove any act, use or proposed action or any other matter or thing, may be assigned by it to any other entity or to the Association. Any such assignment or transfer shall be made by an appropriate instrument in writing duly recorded in the office of the Wayne County Register of Deeds. In the event that any provision of this Master Deed conflicts with any of the provisions of the Bylaws or Condominium Subdivision Plan, the provisions of the Master Deed shall govern.
